

Course Aim

To implement the Softsync software on (at least) one client PC and also to provide the attendees with an understanding of the basic principles of the operation of the Softsync software.

Pre-requisites

The latest versions of CELCAT and SoftSync software (from CELCAT supplier) and (at least) one PC. The attendees should have a working knowledge of the Agresso QL Students curriculum (specifically the structure) and CELCAT operational functionality.

Suggested Attendees

Those responsible for the administration of the Agresso QL Students curriculum model and those responsible for scheduling functionality.

Course Content

- **Configuration of Agresso QL Students and Softsync.**
The CELCAT export parameters in Agresso QL Students will be discussed and set to the delegates requirements. The Softsync parameters will be discussed and set to the delegates requirements.
- **Operation of the Import & Export of Data Between Agresso QL Students and CELCAT**
Discussion and demonstration.
- **Operational Characteristics of CELCAT Timetabling**
Discussion in the context of the Softsync link.
- **Overview of Register usage in Agresso QL Students following automatic creation by Softsync.**

Course Objectives

Attendees will have a fuller understanding of the principles and practice of the operation of the interface between Agresso QL Students and CELCAT.

Methodology

The theoretical principles behind the design of the interface will be explained and discussed followed by (or intermingled with) practical 'hands on' exercises developed with the attendees during the session.

Duration

1 day
From 10.00 a.m. - 16.30 p.m.

Location

Normally at the customer site

Cost

POA - dependant on location.
