- Agresso QL Students on line Statistics**
 5 Statistical Categories
 Display Formats
 Grid Set-up and Display
 Data Selection and Filter
 Admission Statistics
 Field Operators

Course Objectives

The attendee will be able to manipulate the data captured in the institution's ISR return in order to maximise the information available and use it for analysis relevant to the institution's requirements.

Methodology

A theoretical overview of how the ISR return can be manipulated, followed by a "hands on" session for users.

Duration

1 day
 From 10.00 a.m. - 16.30 p.m.

Location

Agresso's Swansea Training
 Centre or customer site

Cost

POA - dependant on location.
