

## Course Aim

The aim of the Agresso QL Students V4 ILR Workbench training is to provide the attendants with knowledge of how to use the Agresso QL Students V4 ILR Workbench to produce valid and correct ILR returns.

## Pre-requisites

It is advisable that the attendants are confident users of database applications.

## Suggested Attendees

The Agresso QL Students V4 ILR Workbench training is intended for users that are responsible for the institution's ILR return.

## Course Content

During the Agresso QL Students V4 ILR Workbench training, the attendants will gain knowledge and experience in all the various aspects of the ILR Workbench. They will learn how to use it to run an ILR and subsequently check for any errors within it. The trainer will also demonstrate how the ILR Workbench can be used to fix ILR errors, flood specific ILR fields, perform an ILR rebuild, etc.

### Course Objectives

Attendants will gain the knowledge necessary to use the Agresso QL Students V4 ILR Workbench to produce their institution's ILR Returns.

### Methodology

The theoretical aspects of the Agresso QL Students V4 ILR Workbench are explained and discussed in combination with "hands-on" training.

### Duration

1 day  
From 10.00 a.m. - 16.30 p.m.

### Location

Agresso's Swansea Training  
Centre or customer site

### Cost

POA - dependant on location.
