

Agresso QL Foundation Technical Course

Course Aim

The aim of this course is to provide the delegate with the necessary skills to maintain, administer and apply upgrades to the basic Agresso QL product set.

Pre-requisites

The delegate is expected to have a good working knowledge of the PC and server operation systems and database on which the Agresso QL product set resides at his or her organisation.

Suggested Attendees

Where possible, the systems used for the training course will be broadly matched to those employed at the delegate's organisation.
