

SQL 2005 Server Foundation Course

Course Aim

The aim of the Agresso SQL 2005 Server Foundation Course is to provide delegates with the skill necessary to manage a SQL 2005 Server database.

Pre-requisites

Delegates must have previously attended the Windows 2003 Server course.

Suggested Attendees

This course is designed for those who provide "first level" support for the Agresso product set.

Course Content

What is Microsoft SQL 2005 Server?

- ⇒ Database files devices & transaction log files
- ⇒ other database objects

Server Administration

- ⇒ .storage management
- ⇒ .security management
- ⇒ SQL 2005 Server administration tools

Installing and Configuring MS SQL 2005 Server

- ⇒ server requirements
- ⇒ installing server software
- ⇒ creating a SQL 2005 server user account

Managing Databases

- ⇒ creating data files
- ⇒ expanding data files
- ⇒ resizing data files
- ⇒ dropping a database
- ⇒ basic database maintenance

Managing User Accounts and Login Security

- ⇒ creating the Agresso master login
- ⇒ creating SQL logins

Backing up System and User Databases

- ⇒ backup overview
- ⇒ preventing loss of data

Course Objectives

On completion of this course, the delegate should be able to manage a SQL 2005 Server database.

Methodology

The course provides a practical "hands on" approach and tutorials to various aspects of managing the SQL 2005 Server database.

Duration

1 day
From 9.30 a.m. - 16.30 p.m.

Location

Agresso's Swansea Training
Centre

Cost

£350 plus VAT, per delegate, per day.
